5) **PRESENTATION TO PARTICIPANT**

Speech for awareness was delivered by Dr. O. P. Agrawal, Rtd. Director of the Raurkela Hospital of Steel Authority of India. He said that AFI is not only treating diseases but is also trying to prevent them. Besides teaching the children in Ekal Vidyalaya, We are striving hard to prevent Anemia in women of child bearing age and children. Bhandra block is pilot project of Anemia and we have already registered women and children for above program through survey. We will need your cooperation to accomplish our goals. Our Karyakarta will come to you to test Hb% and deliver medicines. They will advise you to take green leafy vegetables in boiled form with some sour substance added to it such as lemon, tomato or mango. This will improve the HB % in your body. Simultaneously hand washing before meals, not doing open air defecation and drinking boiled water is also important to prevent worm infestation which is main cause of Anemia in children.
